I send you a password to get in  
my house. I will be back soon.

OK! See you then.

A screenshot of a mobile application interface for setting a temporary password. The screen has a white background with a grey header bar containing a back arrow, the title 'Temporary password setting', and a 'Done' button. Below the header, there is a text prompt 'Please enter temporary password:' followed by a row of seven input boxes containing the digits 5, 9, 3, 3, 5, 8, and 7. Below the digits is a blue button labeled 'Go to step 2/3'. Further down, there are three text input fields labeled 'Name', 'Liby', and 'Effect of time'. Below these are two more text input fields labeled 'The failure time'. At the bottom, there is a toggle switch for 'SMS notification' which is currently turned off. The status bar at the top of the phone shows the carrier '中国移动', signal strength, time '7:01 PM', and battery level.
